

SAI SEKHAR

 saisekhar070205 —  saisekhar-y
 ysaisekhar@gmail.com —  +91 9246603173

Skills

Programming Languages: Java, Javascript

Web Development: HTML, CSS, Bootstrap, Node.js, Express.js, React.js

Version control: Git, GitHub

Database: SQL, MongoDB

Education

2023 – 2027	B.Tech CSE (AIML) at Mohan Babu University, Tirupati	<i>Current CGPA: 9.40</i>
2022	Class 12th – BIEAP, Narayana Junior College, Guntakal	<i>97%</i>
2020	Class 10th – SSC, Narayana Junior School, Guntakal	<i>98%</i>

Projects

Wanderlust — Airbnb Project

Project Link

Wanderlust is a full-stack web application inspired by Airbnb, designed to provide a seamless platform for browsing, searching, and booking property listings. Users can explore properties based on categories, locations, and availability. The platform includes user authentication, property listing management, search and filter functionality, and a responsive UI for a smooth user experience. The project is deployed live on Render and demonstrates real-world web application development with a focus on usability and functionality.

Tools: Node.js, Express.js, GitHub, Render

Weather Prediction Project

Project Link

A responsive and interactive weather application built with React.js and Material UI. The app allows users to search for cities worldwide and instantly view real-time weather information, including temperature, humidity, wind speed, and weather conditions. The interface features a clean, modern design with dynamic styling based on the weather type, providing an engaging user experience. The project demonstrates effective use of API integration, state management in React, and Material UI components for building a visually appealing and functional web application.

Tools: React.js

Achievements

- Earned the ServiceNow CSA certification, demonstrating proficiency in platform administration, ITSM workflows, and core ServiceNow modules — May 2026.
- Completed ServiceNow Micro-Certification: Welcome to ServiceNow, demonstrating understanding of the ServiceNow platform fundamentals.
- Achieved LeetCode 50 Days Badge by solving coding problems consistently for 50+ days, strengthening DSA and problem-solving skills
- Contributed to college coding club initiatives, organizing workshops and hackathons.

Hobbies / Positions of Responsibility

- Competitive programming on LeetCode
- Exploring new web technologies and frameworks
- Participating in hackathons and tech events
- Reading tech blogs and following AI/ML trends
